

Flight testing and certification price list of the DHV Technical department

The prices for LTF flight tests and certification conducted by the DHV include publication of the results with product pictures in the DHV-Info magazine and in the technical database on the DHV website with product pictures, and video documentation of the test manoeuvres, should this be authorised by the manufacturer.

The prices for EN flight tests and certification conducted by the DHV include publication in the technical database on the DHV website with product pictures, and video documentation of the test manoeuvres, should this be authorised by the manufacturer. This price list is valid for all testing and certification applications made to the DHV from 01.09.2008 onwards.

Upgrades, or changes to existing certificates will be priced individually.
